

New Source Review newspaper advertisements for construction permit applications, August 2, 2018. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications will be published on one of the following dates: August 1-2, 2018. Public notices are generally published every week. The previous publication of public notices was July 26, 2018.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is Royal Oak Enterprises LLC dba Royal Oak Enterprises LLC with a mailing address of 6425 State Route ZZ, West Plains, MO 65775. They seek to obtain air contaminant permits for construction of a Charcoal Production Plant at 0 Richland Rd, Whiteville, TN, as follows:

(1) Charcoal Kilns #1-10 (Division identification number: 35-0118-01/74414). The proposed operations would consist of ten (10) charcoal kilns. One afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(2) Material Transportation (Trucks) and Material Storage Piles (Division identification number: 35-0118-02/74414) The proposed operations would consist of Storage Piles of Charcoal and also Truck Transportation of Wooden Slabs and Charcoal. Fugitive particulate emissions would be emitted from Roads and Storage Piles. There would be physical construction. Regulated air contaminants would be emitted by this source.

(3) Charcoal Kilns #11-20 (Division identification number: 35-0118-03/74447). The proposed operations would consist of ten (10) charcoal kilns. One afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(4) Charcoal Screening with Dust Collector (Division identification number: 35-0118-04/74447). The proposed operations would consist of a charcoal bagging process within a building enclosure. One Dust Collector would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(5) Lump Charcoal Bagging with Dust Collector (Division identification number: 35-0118-05/74447). The proposed operations would consist of a charcoal bagging process within a building enclosure. One Dust Collector would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(6) Charcoal Kilns #21-30 (Division identification number: 35-0118-06/74448). The proposed operations would consist of ten (10) charcoal kilns. One afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

Mr. G. Forte is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times" --publish once on or before Thursday, August 2, 2018.

The applicant is Petoskey Plastics, Inc. with a mailing address of 5725 Commerce Drive, Morristown, TN 37814. They seek to obtain an air contaminant permit for the construction of polyethylene pellet storage silos and a corona treater with printers at 5725 Commerce Drive, Morristown, TN as follows:

(1) Polyethylene Pellet Storage Silos (Division identification number: (32-0173-19/74416). The proposed operation would consist of four polyethylene pellet storage silos. A cyclone with fabric filter will be used for pollution control. There will be physical construction. Regulated air contaminants will be emitted by this source.

(2) Corona Treater with Printers (Division identification number: (32-0173-20/74416). The proposed operation would consist of a corona treater with two (2) printers. No pollution control is proposed. There will be physical construction. Regulated air contaminants will be emitted by this source.

Chelsea Meadows is the assigned Division person.

For the Hamblen County "Citizen Tribune"-- publish once on or before August 2, 2018.

The applicant is Hickory Specialties, Inc. dba Kerry Ingredients & Flavours with a mailing address of 13797 Highway 70 North, Monterey, TN 38574. They seek to obtain an air contaminant permit (Division identification number: 18-0028-04, 11, 25, and 26 / 974456) for the modification of the liquid smoke manufacturing facility located at the same address. The proposed modification consists of increasing the throughput for the six (6) existing calciners (source 04) and two (2) sawdust dryers with cyclone control (source 11), and constructing a new calciner (source 25) and seven (7) storage tanks for finished product (source 26). There will be physical construction. Regulated air contaminants are emitted by these sources. Ms. J. Pratt is the assigned Division person.

For Cumberland County "Crossville Chronicle"--published once on or before Thursday, August 2, 2018.

The applicant is Proton Power with a mailing address of 487 Sam Rayburn Parkway, Lenoir City, TN 37771. The facility seeks to obtain an air contaminant permit (73-0241/973998) for modification of its synthetic fuel planta located at 397 Black Hollow Road, Rockwood TN 37854. The proposed modification will include a new process (wood vinegar production) as well as changes to existing processes; raw material receiving, processing, drying; fuel conversion/production; biochar production; and product fuel storage tanks and pumping station. There will be physical construction with regulated air contaminants emitted by the source. Due to the amount and type of emissions, there will be pollution control equipment. Tawanna F. Reid is the assigned Division person.

For the Roane County "Roane County News"--publish once on or before Thursday, August 2, 2018.
